Tomorrow's Vision*

FOUNDED: [2021]
HEADQUARTERS:
[Riyadh, Saudi Arabia]

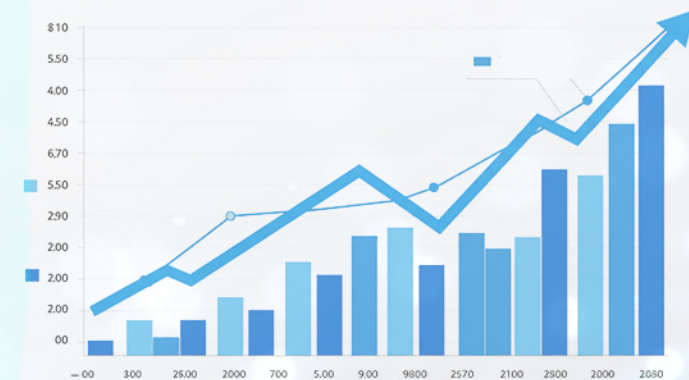

> ABOUT US

UITech is your **partner in your digital transformation journey**, in UITech we are dedicated to delivering innovative solutions that empower businesses and individuals to thrive in the digital age. With a strong focus on cutting-edge technology, UITech specializes in **[GRC, Cybersecurity Solutions, Technology Solutions]**, providing tailored services to meet the evolving needs of its clients.

> OUR MISSION

Our **mission** is to drive digital transformation by offering scalable, secure, and efficient technology solutions that enhance productivity, streamline operations, and foster **growth**.

> OUR VISION

Our **vision** is to establish ourselves as a leader in the IT and Cybersecurity solutions sector by delivering innovative, agile, and impactful solutions that drive business growth, stability, and continuity. Guided by our philosophy of **continuous improvement and adaptation**, we are committed to staying ahead of technological advancements. By leveraging the latest trends and cutting-edge solutions, we aim to future-proof not only our own organization but also empower our partners to thrive in an ever-evolving digital landscape.

> OUR VALUES

INNOVATION

We embrace creativity and continuous improvement.

INTEGRITY

We operate with transparency and honesty in all our dealings.

COLLABORATION

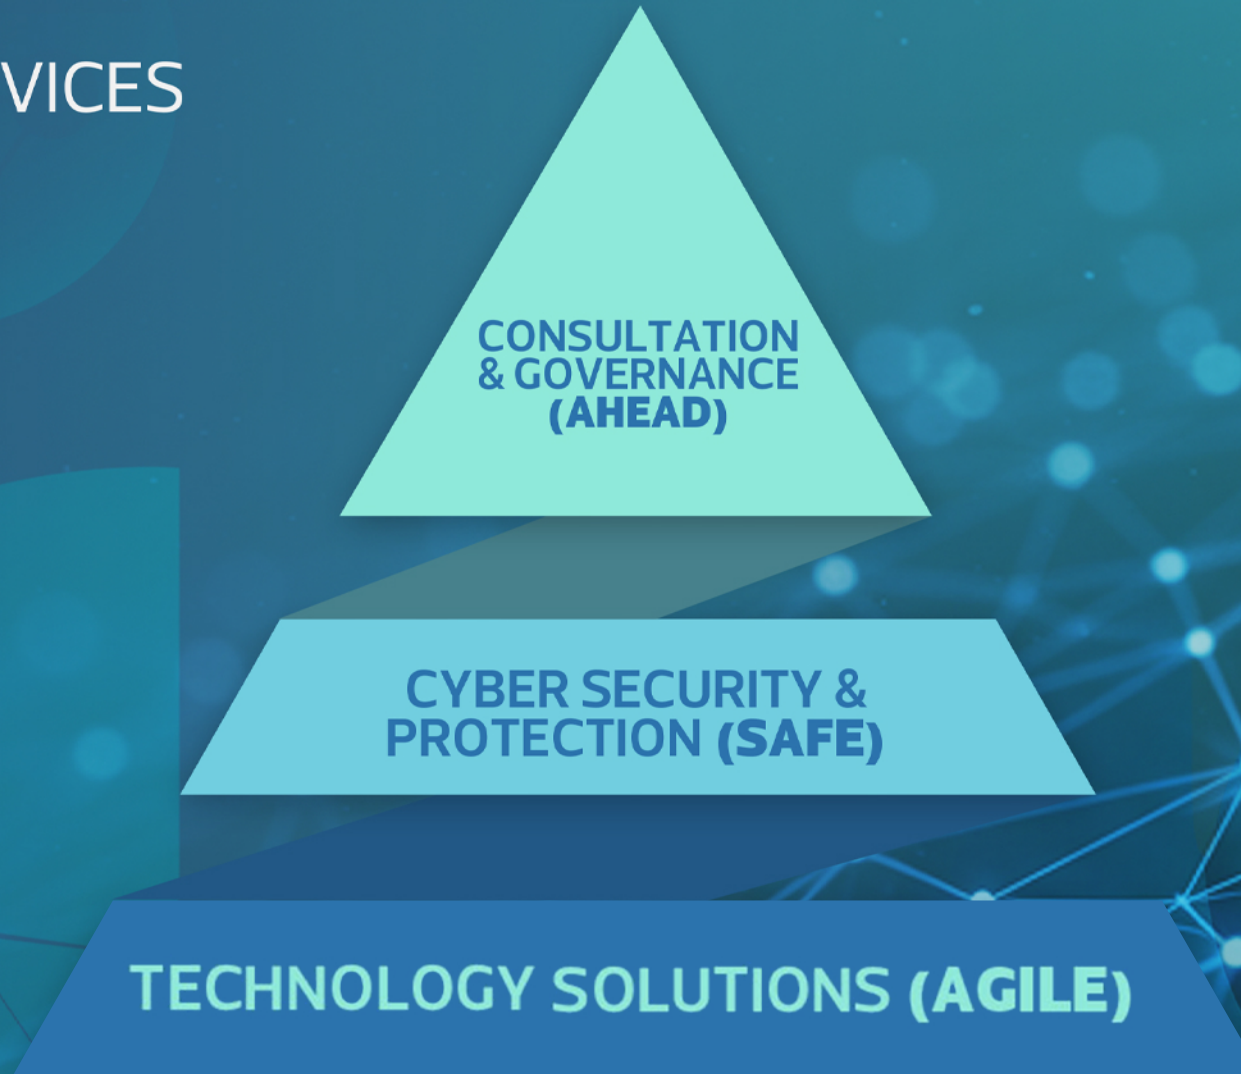

We work closely with clients and partners to achieve shared success.

SUSTAINABILITY

We are committed to keep delivering services with high level of quality.

(AGILE)

> TECHNOLOGY & SOLUTIONS

IT Solutions:

- **Server Infrastructure:**

- Physical server infrastructure, virtualization, Storage Systems, licensing, OS, Patching, securing, supplying, Design & implementation.

- **Backup Solutions:**

Design, implement and test backup and DR solutions.

- **Network Infrastructure:**

Design, implement high performance and secure network infrastructure starting from sizing, supplying, implementation and support for switches, wireless solutions.

- **Cloud infrastructure solutions and management:**

Covering cloud infrastructure services starting from deployment till full management and monitoring of your cloud infrastructure.

➤ **HOLISTIC VALUE PROPOSITION:**

UITech integrates these pillars into a unified strategy that combines governance, security, and operational excellence. By aligning consultation with regulatory requirements, fortifying defences through the CIA triad (confidentiality, integrity, availability), and delivering scalable technology solutions, we enable organizations to:

- **Achieve compliance while minimizing cyber risks**
- **Optimize resource utilization through agile, secure architectures**
- **Focus on core business goals with confidence in their digital resilience**

> WHAT WE OFFER:

1. Consultation

- Expert guidance to align cybersecurity with business goals. Risk assessments, audits, and tailored roadmaps for compliance and threat resilience.

2. Protection & Defence

- Proactive security with advanced tools (firewalls, IDS), 24/7 monitoring, and rapid incident response to block threats.

3. Managed Services

- End-to-end management: continuous monitoring, updates, training, and compliance to keep defences strong and downtime minimal. Tailored SLAs to enhance your services stability, protection & suit your needs and budget.

4. Technology Supply & Solutions

- Cutting-edge tools from leading vendors, seamlessly integrated and optimized for scalable, future-ready security.

> Why UITech is your **best partner?**

- **INNOVATION:** We stay ahead of the curve by leveraging the latest technologies and trends.
- **CLIENT-CENTRIC APPROACH:** Our solutions are tailored to meet the specific needs of each client.
- **EXPERT TEAM:** A highly skilled team of professionals with extensive experience in technology and innovation.
- **COMMITMENT TO EXCELLENCE:** Delivering high-quality solutions with a focus on reliability and performance.
